**Location: Palmer State Office Building  
515 E. Dahila Ave  
Palmer, Alaska 99645**

This course is designed to give the students the knowledge and skills necessary to design, develop, and implement use of force training using static, dynamic and interactive training. This course will provide law enforcement professionals with the principles of use of force, ideas on use of force training, and the overview needed to evaluate an officer-involved use of force incident.

This course is a combination of lecture and practical activity; however, this is not a “tactic” based course. It’s primary design is to expose the student to the decision-making process of using reasonable force and how to articulate the use of force option used.

#### **Instructor: Glyn Corbitt**

Glyn is an experienced training supervisor who has demonstrated a history in law enforcement, emergency management, tactics, emergency services, and criminal law. Glyn has assisted and/or performed numerous use-of-force analyses for attorneys, prosecutors, and agencies throughout the United States.
